Dear Sir/Madam,

We are happy to inform you that the Institute for Studies in Industrial Development (ISID) is organizing a **One-Week Orientation Programme in Social Science Research for Research Scholars and Teachers belonging to Scheduled Castes (SC) and Scheduled Tribes (ST)** during 19<sup>th</sup> to 24<sup>th</sup> February, 2018 at the Institute's campus, New Delhi. This programme is sponsored by Indian Council for Social Science Research (ICSSR), New Delhi.

Broadly, this is a multidisciplinary programme dealing with various aspects of qualitative and quantitative research starting from research design to writing and dissemination of research output. The programme intends to equip the participants to conduct their research more scientifically, i.e. with appropriate theoretical and empirical knowledge in a systematic way. A week long programme consists of interactive sessions including lectures, group discussions, database familiarisation etc. and also provides opportunity to interact with eminent academicians working on various socio-economic issues.

A Notification of the Orientation Programme which appeared in the 9<sup>th</sup> December, 2017 issue of *Economic and Political Weekly* is enclosed. I would request you to kindly display the Notification on the notice board and also circulate it among the research scholars and colleagues of your Institute/Centre/Department for wider participation.

Thanking you,

Yours sincerely,  
*Murthy*

# One-Week Orientation Programme in Social Science Research

for Research Scholars and Teachers belonging to Scheduled Castes & Scheduled Tribes

Sponsored by Indian Council of Social Science Research (ICSSR), New Delhi  
February 19-24, 2018

Call for  
Applications

The Institute for Studies in Industrial Development (ISID) is organising a **One-Week Orientation Programme for Research Scholars and Teachers** belonging to Scheduled Castes (SC) and Scheduled Tribes (ST) from **February 19-24, 2018**. This programme is sponsored by Indian Council for Social Science Research (ICSSR), New Delhi.

**Aim of the Programme:** Quality of social science research has been fallen short of expectations in terms of contribution to the better understanding of socio-economic processes and shaping of public policy. One of the major reason for this is the lack of adequate training on fundamentals of research methodology. ISID has been one of the pioneering research organisations promoting social science research in India through its databases on Indian economy, on-line research referencing of Indian Social Science Journals and Press Clippings etc. and also organising various training and capacity building programmes, conferences, seminars, workshops etc., and through other medium of dissemination of its research activities. This programme specifically aims to develop research capabilities of young social science research scholars from marginalised groups to strengthen their potential as future researchers.

**Content of the Programme:** Broadly, this is a multidisciplinary programme dealing with various aspects of qualitative and quantitative research starting from research design to writing and dissemination of research output. A week long programme consists of interactive sessions including lectures, group discussions, database familiarisation etc. The following are the key course components: (i) Introducing the Basics of Research Methods; (ii) Research design: Identification of appropriate Research Questions, Effective Review of Literature, developing the conceptual framework, hypothesis formulation; (iii) Data collection and sampling methods: conducting field survey and field notes preparation, familiarisation of various secondary data sources, undertaking case study; (iv) Qualitative and Quantitative data analysis: basic statistical and econometric techniques with relevant software packages like Excel, SPSS and Stata; (v) On academic writing and publication; and (vi) Practical sessions/assignments. In addition, there will be special lectures by eminent academicians on various socio-economic issues such as industry, employment, education, health, poverty, inequality and other social sector issues. Overall, the programme intends to equip the participants to conduct their research more scientifically, i.e. with appropriate theoretical and empirical knowledge in a systematic way.

**Who can Apply?** Young social science researchers and teachers from colleges, universities and research institutes belonging to the aforementioned social groups interested in pursuing research related to socio-economic issues will constitute the target audience of this programme. A batch of 25-30 participants will be selected on all-India level, based on suitability. Participants will get free boarding and lodging facility at the campus hostel on twin-share basis and to and fro 3-tier AC train fare by the shortest route will be reimbursed.

**Application Procedure:** Interested candidates may send their applications (downloadable from ISID website: <http://isid.org.in>) in the prescribed format along with CV, 500 words write up in their area of research interest and a letter of consent from the Department/Institution/College through email to [vsbeena@gmail.com](mailto:vsbeena@gmail.com) on or before **January 19, 2018**. Further details of the programme updates can be viewed at <http://isid.org.in/trainprog.html>
