01 December 2016

*Dear Dr. Kalyankar,*

You are aware that the Government of India has initiated very important reforms in the financial sector and has set a goal of building a cashless society so as to correct a number of deficiencies in the system.

It is needless to say that the Universities, their affiliated colleges and the vast student community are required to carry out numerous transactions on a day to day basis where cash has been used hitherto. There is an urgent need now to shift to electronic transfers or transactions.

An illustrative note on the various methods of doing electronic transactions and transfer of money is being sent herewith for your ready reference. I request you to take up a drive for creating an awareness about these methods and for ensuring that all the money transactions, in the sphere of the University, their affiliated colleges and in the student community, will be done through the electronic transfer or transactions.

I would appreciate if you draw up a detailed time bound strategy based on a gaps / needs analysis for all the stakeholders in this process, identify suitable methods for their needs and adopt necessary mechanisms to achieve this objective. The progress in this regard may please be reported to my office from time to time.

With best wishes,

## Must Do Practices

Register your mobile number at bank for regular information by SMS for every transaction

Never share your PIN to anyone

Transact at only trusted merchants

While at ATM, ensure no one is looking over your shoulders

# Mobile POS

Note: mSwipe is used as an example of MPOS here

# Summary
