About University and Institutes

Mahila Mahavidyalaya Amravati is governed by Nootan Vidarbha Shikshan Mandal Amravati. The institute was established by great freedom fighter honorable Late Shri Dada Saheb Khaparde. The college was founded by Hon. Late Shri Baba Saheb Khaparde in 1965 for the upliftment of girl students. It is one of the oldest and best colleges for women in western Vidarbha. It is located in the heart of the city and has been approved to be the source of women empowerment with an age old dictum in the mind - "If you educate a woman she will educate a family and can contribute in nation building". The college runs Arts and Commerce faculties and also post graduation course in Home Economics and Music. Junior College offers course of Arts Science and Commerce streams since 1988. Department of Commerce of Mahila Mahavidyalaya provides practical knowledge and application in banking, insurance, marketing and communication. The College has three PhD research centres for Commerce and Music. The college has been accredited B+ grade by NAAC

Chintamani Group of Institutions, Ballarpur is fountain of educational environment. Hon. Late. Principal Vasant Rao L. Dontulwar was sown a seed to uplift the backward and tribal young generation in 1998. Late Dr. Vaibhav Dontulwar nourished it and Er. Swapnil Dontulwar flourished it with other supporters. At present Chintamani Mahavidyalaya, Pombhurna; Chintamani Mahavidyalaya, Ghugus, Chintamani College of Commerce, Pombhurna; Chintamani College of Arts and Science, Gondpipri; Chintamani College of Science, Pombhurna are 5 granted senior colleges and Chintamani B.Ed. College, Ballarpur; Venkatwshwara College of Commerce & Management Studies, Ghugus; are self financed senior colleges along with Chintamani Vidyalaya and Jr. College, Visapur as a granted and Chintamani Jr. College of Science, Pombhurna as a self financed educational institutions actively run by the group. These institutions are not only fulfilling the basic need of educational facilities in multi disciplines but also rapidly advancing for the development of the future human resource of the nation.

The **Gondwana University Gadchiroli** has been conceived and formed with a foresighted view to cater the aspirations of the economically so also socio-culturally backward districts of Gadchiroli and Chandrapur. Though the network of Governmental agencies have been constantly trying to execute the state welfare policies of an all inclusive development, the resultant progress has been sluggish compared to other areas of the state. This lag has created a host of socio-political tensions and problems as is seen in the rise of Naxalites violence. Though a speedy all inclusive growth is a right answer to all this it cannot be achieved without apt vision and well-tailored methodology. The formation of a new university is therefore a right step in the direction.

The compiled data on overall life of the domain of the university indicates that it has area specific problems like age old poverty, prejudices followed from static mind-sets, directionless emerging from traditional ignorance etc. The cumulative effect of all this is a deep chasm between the local populace and the rest of the mainstream society. In brief turning problems in to opportunities forms the real syllabi of the new university.

To translate the above vision into reality the university has contemplated befitting modalities commensurate with our intended objectives. Same time efforts will also be made to build up motivational strength in the learners so as to in-still in them hope and ambition for self promotion. This certainly is a colossal and formidable task, yet at the same time is a worthy challenge and we have willfully accepted it.

Conventionally a university is concerned with higher education alone. As a bold experiment we wish to have a small but important deviation from this. For example in rural and backward areas we find vast number of young people, who are educated just up to middle school level, yet have inborn talents for doing skilled jobs after proper and adequate training. So there is need to provide such people a job oriented education, motivating them to be an entrepreneur or to be employed with a good package to live their life equal status and satisfaction. There things are possible though our university by applying certain modern tactics in the field of education.
