ABOUT THE CONFERENCE

National Conference on Frontiers in Science & Technology-2024 (NCFIST-2024) is multidisciplinary science and technology conference, where we aim to bridge the classical with the modern aspects of dynamic fields of science and technology. Our conference serves as a nexus for scholars, researchers and professionals from diverse backgrounds to converge and explore the intersection of traditional theories and contemporary innovations. Through a series of engaging talks, paper presentation and poster presentation, we delve into the rich tapestry of scientific inquiry embracing the timeless principles that underpin classical theories while embracing the cutting-edge advancements that propel us into the future. Join us as we embark on a journey of discovery, collaboration and innovation uniting classical wisdom with modern ingenuity to shape the forefront of science and technology.
