6th IEEE International Advance Computing Conference (IACC-2016)

February 27-28, 2016

Bhimavaram-534204, Andhra Pradesh, India

Organized by IEEE Computer Society - India Council

&

S R K R Engineering College, Bhimavaram, India

Introduction

It is a major conference organized with the objective of bringing together researchers, developers, and practitioners from academia and industry working in the area of advance computing. Conference consists of keynote lectures, tutorials, workshops and oral presentations on all aspects of advance computing. It is being organized specifically to help computer industry to derive benefits from the advances of next generation computer and communication technology.

Researchers invited to speak, will present the latest developments and technical solutions in the areas of: High Performance Computing, Advances in Communication and Networks, Advanced Algorithms, Image and Multimedia Processing, Databases, and Computing in Education.

English is the official language of the conference. We welcome paper submissions. Prospective authors are invited to submit full and original research papers which are not submitted/published/under consideration anywhere in other conferences/journal in electronic (PDF or Word only) format.

About S R K R Engineering College

Founded in 1980, Sagi Rama Krishnam Raju Engineering College (S R K R Engineering College) is the pioneer in engineering education in the South Indian peninsula. It is located between Vijayawada and Visakhapatnam in the rice bowl of India. The college is affiliated to Andhra University where Sarvepalli Radhakrishnan, President of India worked and published extensively on Eastern Philosophy and modern thought. Since its inception, S R K R Engineering College has been dedicated to technological progress and innovation by preparing young minds for leadership in a complex world. The ideal and breadth of engineering education that embraces science and technology is at the core of S R K R Engineering college's philosophy.

The Department of Computer Science was founded in 1991 by people who had a vision. This vision was how Computer Science would fit into the unique spirit of S R K R Engineering College, an institution oriented to an unusual degree around undergraduate education and close interdepartmental collaboration. Guided by the Plan 2016 Silver Jubilee of the Computer Science & Engineering Program, the department is undergoing metamorphosis and moving to become transformative in three fundamental ways : in the global impact of our research; in our innovative pedagogy and in the lives of our students
