Whereas, in exercise of the powers, conferred under the Disaster Management Act 2005, the undersigned, in his capacity as Chairperson, State Executive Committee has vide various orders imposed restrictions in the State to break the chain of transmission of the COVID 19 virus from time to time;

And whereas the State Government is satisfied that the State of Maharashtra continues to be threatened with the spread of COVID-19 virus;

And whereas the state Government, in order to effectively respond to the Covid 19 pandemic has substantially upgraded medical facilities available in the state for the testing as well as treatment of Covid 19 disease and has substantially increased the number of hospital beds including oxygen supported beds;

And whereas in order to ensure that State as a whole has adequate reserves of oxygen to cater to new Corona Cases, Oxygen as a resource is to be judiciously used at the state level to ensure that no part of the state faces shortage of the same during times of need and thus if oxygen requirement for the whole state for tackling Covid 19 patients is beyond a critical percentage of its own total production capacity, none of the parts of state may be allowed to relax restrictions and risk increase in numbers of infections;

And whereas various parts of the state are at various stages of infections and must correspondingly have different severity of restrictions to 'break the chain';

And whereas some of the districts need to be divided into different administrative units for the limited purpose of imposition of Covid restrictions, given administrative structures as well as, to a large extent, self-contained nature of basic economic activities;

And whereas it is imperative that decisions about severity of restrictions must be taken rationally on the basis of various parameters that might be considered as indicative of current and future severity of the infection as well as probable cases that may arise in foreseeable future for medical treatment as well as parameters that are indicative of availability and adequacy of medical resources for treating these future cases and that may raise alarm at the right time that the health system may be coming under duress and may get overwhelmed in coming days;

And whereas it is also important that there is an appreciation in the public at large about the reasons behind restrictions on economic activities so that their voluntary compliance may be expected and also that citizens are aware that restrictions are needed due to existing scale of pandemic so that their self-restrained behavior in compliance for Covid Appropriate Behavior may also be expected and also that citizens may realize that if with collective restrained and disciplined behavior they help to bring down the spread and thus allow more social and economic transactions to be freed from constraints;

Now therefore the Government in exercise of the powers conferred under Section 2 of the Epidemic Diseases Act, 1897, read with all other enabling provisions of The Disaster Management Act, 2005, finds it is necessary to impose various levels of restrictions in

different parts of the State based on the conditions in each respective district/ administrative unit to not only break the chain of transmission effectively but also to commence disciplined restart of various economic and social activities without forgoing the gains achieved in controlling the spread of Covid 19 infection through measures of restrictions.

In view of the above, following regulations are framed for effective measures of restrictions for containment of Covid 19 pandemic, in various administrative units of the State of Maharashtra.

I. Administrative Units:

A. Municipal Corporation of Greater Mumbai, Pune Municipal Corporation, Thane Municipal Corporation, Nashik Municipal Corporation, Pimpri Chinchwad Municipal Corporation, Aurangabad Municipal Corporation, Vasai-Virar Municipal Corporation, Navi Mumbai Municipal Corporation, Nagpur Municipal Corporation, Sholapur Municipal Corporation and Kalyan-Dombivali Municipal Corporation will be treated as separate administrative units.

B. Remaining area of each of 34 districts (other than Mumbai City and Mumbai Suburban District), after carving out areas under sub-section A, shall form a separate single administrative unit.

C. DDMA may propose any contiguous area with common characteristics and self-contained economic and social interactions, where the population is at least about one million, to be declared as a separate administrative unit for the limited purposes of this regulation, to CEO of State Disaster Management Authority for final approval and declaration.

II. Levels of Restrictions:

There shall be five levels of restrictions for different classes/ categories of activities. These levels of restrictions shall be applied based on two parameters: Case Positivity Rate and Percentage of Oxygen Beds Occupancy. Every Disaster Management Authority shall enforce these levels of restrictions over administrative units falling under its jurisdiction. IV. State Level Oxygen Trigger: Government has taken note of the fact that medical oxygen is the most critical resource for the treatment of Covid 19. Government has further noted that the production capacity of State of Maharashtra is currently 1200 MT per Day and that there are serious difficulties in sourcing oxygen from out of state sources as well as transporting oxygen to various remote parts of the state. Government is there satisfied that there exists a need to take measures to contain the spread of the virus much before the number of patients requiring oxygen based treatment overwhelms the state's oxygen production capacity. Thus there must be a well quantified oxygen trigger that will be the basis for level 3 and above restrictions across the state.

Given the state's current oxygen production capacity at 1200 MT per Day, as indicated above, and the fact that typically, on an average 1000 Covid 19 patients require 20 MT per Day, the maximum number of patients that can be supported from the state production capacity is 60000. In view of the aforesaid, the following oxygen trigger shall operate:

A. If

I. total oxygen beds occupied are more than 45000 in whole of the state with rising trend of oxygen beds occupancy or,

II. total oxygen beds occupied are more than 50000 irrespective of the trend of oxygen beds occupancy,

then no part of the state, irrespective of other local parameters like Positivity and Oxygen Bed Occupancy, shall be below level 4. This is to ensure that Maharashtra state daily consumption of oxygen for medical treatment remains within the daily production capacity of the state which is about 1200 MT and may cater to about 60000 beds for Covid 19 patients.

B. If

I. total oxygen beds occupied are between 35,000 and 45000 irrespective of the trend of oxygen beds occupancy or

II. total oxygen beds occupancy between 45000 and 50000 with reducing trend,

no part of the state shall be below level 3.

V. The operationalization of the above-mentioned levels of restrictions will be as follows –

a. Every Thursday, Public Health Department of Government of Maharashtra will declare number of oxygen beds occupied at the state level, as well as positivity rate and oxygen beds occupation percentage in each district. SDMA shall declare whether overarching condition stated in section IV exists.

b. The District Disaster Management Authority will, based on the above mentioned parameters, after disaggregating these parameters for various administrative units in its jurisdiction, shall decide, subject to state level oxygen trigger as per section IV, which level of restrictions should be imposed in these administrative units, as per the guidelines contained herein.

- c. The restrictions level, if there is any change, will come into effect from the following Monday.
- VI. The DDMA shall have the powers to make minor modifications in respect of restrictions relating to activities mentioned in the table under section III to meet with local exigencies. However, such modifications shall be kept to the minimum and shall be brought into force only with the concurrence of State Disaster Management Authority.
