Youth Parliament: Voice of New India

Concept Note

Background

The Honorable Prime Minister, in Mann ki Baat said,

“I got an idea whether we could organize a mock parliament in every district of India? Where the youth between 18 and 25 could sit together and brain storm about new India, find ways and chalk our plans. How could we realize our resolves before 2022? How could we build an India of the dreams of our freedom fighters?”

He categorically spoke about giving a chance to the youth to put forth their views on various issues in the country.

“I propose that a mock Parliament be organized... comprising one young person selected from each district who would participate and deliberate on how a new India could be formed in the next five years. How can resolve be transformed into reality?”

(Today, a lot of new opportunities have been created for the youth. Our youth are coming forward in areas like skill development, innovation and entrepreneurship and are achieving success. I wish that the New India Youth get information and details of all these new opportunities and plans at one place and a system be created so that every young person on turning 18 should automatically get to know all this and benefit from it.)

He reiterated his desire to organize youth parliaments in each district in his address to the youth during 22nd National Youth Festival on 12th January 2018. Honorable Prime Minister wants to create a new India, built on policies as deliberated by new voices.
