**Sub: Training Course (Tier-II) on "Regional Ground Water Management Issues".**

Sir,

Central Ground Water Board, Ministry of *Jal Shakti*, Govt. of India is organising a 3 days Online Training course (Tier-II) on "**Regional Ground Water Management Issues**" under the aegis of National Rajiv Gandhi National Ground Water Training & Research Institute from 18<sup>th</sup> to 20<sup>th</sup> August 2020.

As we all know, ground water is the back bone of India's agriculture and drinking water security. It is common pool resource used by millions of farmers and remains the only drinking water source in more than 80% of the rural areas. Due to ever increasing demand to fulfil the daily needs of increasing population, this resource is under tremendous threat in many parts of the country and witness by decline in water level and drying up of the wells. Thus, there is immediate need to manage this precious resource by initiating suitable countrywide steps with better understanding of occurrence and movement of ground water resources beneath the earth.

With this objective, the 3 days online training programme is being organised to impart basic training to teachers / lecturers and professors from various disciplines of the university. During the training programme, lectures will be delivered by the expert faculty from CGWB, Agriculture Dept., Water Conservation Dept., GSDA and other domain experts which not only will help in management of water resources through the educational hubs but also in extending the knowledge gained during the training to the young generation and end users.

Therefore, it is requested to issue necessary directions to all the heads/principles of institutes/collages under your jurisdiction to advise all their professors, lectures and persons involved in water supply to participate in the proposed 3 days training programme. A link will be shared to all the participants to enable their online registration. The duration of each day training will be about 3 hours from 10:00 hrs to 13:00 hrs having 3 lectures each of 45 minutes with discussion and a break of 15 minutes. The platform for conducting the training will be communicated to all the participants shortly by email/message/mobile app. Further, it is also informed that the link of each day training course will be shared 1-2 day before for convenience. After completion of training, certificate will be given to all the participants who attend successfully the training programme by Rajiv Gandhi National Ground Water Training and Research Institute.

Registered  
Circulated to  
all concerned  
Khandare

Yours faithfully,

(Dr. P. K. Jain)  
Regional Director
