

B.A.LL.B. (5 Years Course) (CBCS Pattern) Semester-VII  
**UL57C05 - Cyber Law**

P. Pages : 1

Time : Three Hours

**GUG/W/24/14107**

Max. Marks : 80

- 
- Notes : 1. Attempt all questions.  
2. Each question carries equal marks.

1. Discuss the need for Cyber Law and the role of Cyber Jurisprudence in addressing legal challenges in cyber space.

**OR**

What are the constitutional and Human Rights issues associated with right to privacy and Data Protection in cyberspace?

2. Explain the offenses relating to Hacking and their punishment under the IT Act, 2000.

**OR**

Consider a scenario where an individual is a victim of cyber stalking. Describe the legal actions that can be taken under IT Act, 2000 including the specific sections that apply, the process for filing a complaint and the possible outcomes in terms of punishment and protection for the victim.

3. Differentiate between B2B, B2C and C2C Models in E-commerce.

**OR**

Explain how the Indian Contract Act, 1872 applies to online contracts, discussing the essential elements of a valid contract, the types of online contracts and the legal remedies available under the act.

4. Discuss the challenges posed by digital content distributions, issues related to online piracy and the enforcement of copyright protections.

**OR**

“A tech startup, INNOVATE ‘X’, developed a unique encryption algorithm designed to enhance data security in online transactions. The algorithm significantly reduces the risk of cyber - attacks and is used in various e-commerce platforms. INNOVATE ‘X’ applied for and was granted a patent for this technology. Later, a rival company secureNet, implemented a similar encryption method in their software without permission from innovateX. InnovateX filed a lawsuit claiming patent infringement”.

Analyze the application of patent law in this case. Discuss how InnovateX can protect its technology based invention and the potential legal consequences for secureNet if the court finds them guilty of patent infringement.

5. Discuss the challenges posed by the borderless nature of the internet, traditional principles of Jurisdiction and how they are applied in the context of cyber disputes.

**OR**

Analyze an International Dispute involving jurisdictional issues in cyberspace.
