Teacher: ----- I had a good time too.

OR

Prepare a dialogue on the following situation (Sumit thanks his friend Rani for the birthday gift)

5. A) Read the following passage carefully and answer the questions given below.

10

The Cinema is an outstanding wonder of the modern age. It is not only a means of entertainment. But it is also in many ways an education itself.

The cinema is very valuable teaching aid. Historical films help the teacher History. A couple of hours spent in the company in the historical characters dressed in the costume of the period can teach us far more than we can learn from a whole week's study of a history books.

Science can be taught very effectively through films. There are educational film companies which devote their time to the filming of the habits and customs of animals, insects, fish, germs and numerous other branches of scientific life. We can see the hatching of the eggs of fishes and their gradual development into large fish; we can watch the increasing activity of many kinds of germs and their effects on water, milk or blood. We can watch the opening and closing of flowers and leaves, and the growth of grass and weeds. All these actions and movements are greatly magnified on the screen. Such pictures are intensely interesting and are a very great help in the name of education.

Questions-

- i) What are the two great advantages of cinema?
- ii) How do historical films help the teacher of history?
- iii) How can science be taught very effectively?
- iv) How are the actions and movements of animals and insects shown on the screen?
- v) How does the cinema make learning easy?
