Innovation, Incubation and Linkages

Call for Proposals

under

Seed Money Grant Scheme

Proposal applications are invited from full time teachers of affiliated colleges and university PGT departments for Seed Money Grant Scheme which is aimed to facilitate research and development in University and affiliated colleges.

Applications from major research areas and preferred thrust areas of research (Annexure-VI) should be submitted to Director of Innovation, Incubation and Linkages of Gondwana University, Gadchiroli on or before 30th July'2022, 5.30 PM in four spiral bound hard copies. The format of application is appended at the end of this call.

1. INTRODUCTION

Creation of knowledge through teaching-learning, competency development, research – innovation, and inculcation of a value system are the primary objectives of a University. While both teaching and research are central to the realization of the objectives of higher education, research, innovation and technology development are the core areas of knowledge, a means to create livelihood and the benchmark of global excellence in the new millennium. Research is often considered of utmost importance and an integral part of a University's success. The faculty can incorporate the learning outcome through this process in their classroom teaching and publishing their work in good international/national journals, patents, and other forms of expression of creative works.

Gondwana University Gadchiroli (GuG) seeks to strengthen research and innovation activities by motivating the faculty who are not getting external

funding. For this, it is desirable to have Seed Money Grant Scheme. This will enable the faculty and students to engage in research work until projects gets sponsored from outside agency.

Seed capital is the money raised to begin developing a research idea for a business or a new process or product. This funding intends to cover only the initial costs of creating a proposal. The primary objective of seed money grant scheme is to facilitate for seeking further financial support from industry or government funding agencies related to research and consultancy assignments.

The Seed Money Grant Scheme of GuG is designed to stimulate competitive research in strategic areas of national or international importance, to promote innovative product and technology development, and/or to facilitate the start of research programs relevant to the university region which will potentially develop into creative ventures on their own through external funding. The faculty can utilize this grant to start the research work without waiting for a grant from external agency. These projects can provide the incentives to the concerned staff and stepping stones to fetch the research grants from national and international funding agencies.

2. OBJECTIVES

The objectives of this scheme are as below;

- 2.1. To aid faculty members to start a research that has the potential to provide solutions to the problems of adjoining society.
- 2.2. To carry pilot studies on topics relevant to tribal and deprived community in Gadchiroli district.
