Post-Doctoral Fellowship Policy

April 2023

1. Preamble

Post-Doctoral research is an important enabling step in grooming young researchers for launching an academic/research career. A postdoctoral stint also provides an opportunity to acquire new skills, broaden one's horizon and offers a platform for transiting into cross-disciplinary areas. Mentoring for independent research is an indispensable element of postdoctoral training. Top rated institutions in our country which value research also follow this practice but it has not permeated widely.

With our higher education system poised for rapid and massive expansion in the light of National Education Policy 2020 and pertaining to that our requirement of potential faculty with Post-Doctoral Fellowship experience will be very substantial. Thus, a 'home grown' Post-Doctoral Fellowship program is expected to partly redeem the estimated short fall in trained faculty required for the Gondwana University, Gadchiroli.
